BELIEVE CRIPPEN CONFESSED

Statement That He Killed Wife But Not a Case of Murder

AN ILLEGAL OPERATION

May Have Been Performed by Dentist-Husband---Inspector Dew Talks.

London, Aug. 4.—Despite the reiteration today by Scotland Yard that Dr. H. H. Crippen, under arrest in Quebec on a charge of wife murder, has not confessed to Inspector Dew, and a positive statement by Arthur Newton, counsel for Crippen, to the same effect, the question as to whether he confessed is still unsettled. Lawyer Newton's denial is considered significant. "So far as I can see," Newton said, "no evidence exists that any murder has been committed. I at least am not at all discouraged."

This statement tends to bear out a long story in today's Chronicle from its Quebec correspondent, in which the latter declares positively that Crippen told Dew he killed his wife, but that it was not a case of murder. The inference is made that Crippen's wife died from the effects of an illegal operation performed by her dentist-husband. It is believed that Lawyer Newton has received a similar statement from his client, which is the basis for his declaration that there is no evidence of a murder.

It developed today, according to information that is absolutely reliable, that the recent stories that Scotland Yard has obtained satisfactory proof of the identity of the body supposed to be Mrs. Crippen, are without foundation. They were spread in the hope that they might cause Dr. Crippen to break down. There is authority for the statement that the body is no nearer identification than on the day it was found under the cellar floor in Crippen's home. The United Press was informed today that no additional evidence had been discovered since the body was found.

The status of the case is such that legal experts generally incline to the belief that unless Crippen confesses it will be a difficult matter to prove his guilt. Detective Sergeant Mitchell and Matrons Foster and Stone of the Holloway jail, left today for Liverpool, where they will take the steamer Lake Manitoba for Quebec, to assist Inspector Dew in bringing back Crippen and Miss Leneve.

Quebec, Aug. 4.—"I am not seeking to compel Dr. Crippen to make a confession. I am not anxious to secure a confession from him. He has said that he is not guilty of murder."

Inspector Dew, of Scotland Yard, made this statement today just before leaving Quebec for Niagara Falls on a sight-seeing trip. The opinion is prevalent here, however, that Dew would scarcely leave his prisoner at this time unless he had received some satisfactory statement from him.

The English law is very strict on the subject of confessions. It absolutely forbids the making public of any confession obtained from a prisoner. Any officer revealing the fact of a confession could be prosecuted.

It is thought that this legal situation may be responsible for Dew's change of attitude since yesterday, when he allowed the inference to go out that Crippen had told him the whole story of Belle Elmores death.

There are those who still insist that despite Dew's denial of today, he has obtained from his prisoner a full statement of the circumstances surrounding the tragedy.

A PRESSING NEED OF THE SOUTH SIDE

The people of the South Side of our city stand greatly in need of a fire station. Though it is a fact that there are less fire alarms called from that portion of the city on the average than other portions, yet it should be borne in mind that the railroad tracks are a great hindrance to the prompt arrival of the firemen with their outfit when fires may occur. Not infrequently there are freight trains passing that hinder or delay the crossings at Second, Third, Fourth and Fifth streets. There might be occasion when some of these trains would obstruct the crossings at these streets to such an extent as to cause a serious delay—one that would be fatal in the loss of property by conflagration.

Only this morning a representative of the Advocate witnessed the passing of long freight trains, one eastward and one westward, that would have delayed the firemen at least four minutes in making the crossing at Second, Third, Fourth or Fifth streets.

These incidents, of course, are liable to happen almost daily, and the people of the South Side have a good claim upon the city for better fire protection.

A fire station located at some good point convenient for that portion of the city is what the South Side deserves and should have.

NOMINEES FOR GOVERNOR AT HOMECOMING

Dalton, O., Aug. 4.—Nearly every home in this village is filled with visitors for the home-coming. The principal attraction today in Warren G. Harding, the Republican candidate for governor, who is to make his first talk since the nomination. Governor Harmon is to follow Harding with a speech tomorrow. Whether either will make a political discourse is doubtful. Both will speak extemporaneously and it is thought both will make their topic "the pleasure and benefits of home-coming." However, political scouts of both parties are here, bent on weighing the amount of welcome each will receive.

COL. ROOSEVELT

Refused to Discuss Politics When Asked About Result of Iowa Convention.

New York, Aug. 4.—Col. Roosevelt today absolutely refused to discuss the result of the Iowa convention yesterday. "No politics," was the answer to every question relating to the political situation in the west.

LIMITS BOYS' WORKING HOURS.

Atlanta, Aug. 4.—A bill making it a misdemeanor for any company to employ messenger boys under 15 years of age between the hours of 9 p. m. and 6 a. m., was passed by the lower house of the Georgia legislature today.

UNABLE TO LOCATE FAMILY OF MAN KILLED BY INTERURBAN

All efforts to locate the family of Irvin Wood the painter, who was killed by an interurban car Tuesday night, have failed thus far and Undertakers Criss Brothers & Jones are in a quandry to know what disposition to make of the body.

The Wasington police department was notified of Wood's death and they were asked to notify his family. Wednesday night the chief of police wired that the family had been notified and that they were not able to have the body shipped to Washington.

This is contrary to all information of this end of the line. Bryant Brothers, for whom Wood worked in Columbus, in conversation with friends of the dead man here state that his mother is a wealthy woman. It is believed that the Washington police made a mistake and notified the wrong family of the man's death. Another effort is being made today to get word to them.

On one occasion when Wood was working here, he roomed in the Lansing block. While there he left a card with the matron in charge of the rooms, bearing the name of his mother and her Washington address. The card read "Mrs. I. Wood, 764 Sixth street S. W., Washington, D. C." The street address was rather indistinct and Undertaker Criss read the address as "70 6th street." A message to this address was sent Wednesday night but no reply has been received at noon today. This morning, another message was sent to "764 Sixth street," and a reply is now being awaited to this telegram.

A big firm of contracting decorators in Washington is also being communicated with. Wood worked for this firm for several years and it is said that he learned his trade while working there. They can probably furnish some information that will lead to the location of Wood's relatives.

MILITIA LEAVING COLUMBUS

Special Trains Bear Soldiers From Scene of Trouble

M'MAKEN IN COMMAND

Nearly 2,000 Soldier Boys Remain to Guard the Capital City.

Columbus, O., Aug. 4.—By night the last of the 1,500 soldiers relieved from strike duty will have left the city. General Dick and his staff scattered to the four winds before noon. General Dick himself went to Akron to change his shirt before going on to Cedar Point to attend the annual legislative convention.

Brigadier General McMaken of the First Brigade and his staff arranged to go to Toledo on one of the special trains transporting the troops. The Sixth regiment under command of L. W. Howard of Toledo was the first to get away. Troops went on two special trains over the Hocking Valley at 10 o'clock. The plan was to take them to Toledo and to distribute them to their stations from there.

On the second section in addition to the Toldeo infantry company there were the Toledo Signal and Ambulance company and the regimental staff.

Special trains over the Big Four and T. and O. C. were in readiness to take the Second regiment of infantry, Col. E. F. Bryant commanding. To the Big Four train leaving at one o'clock were assigned a majority of the companies to be distributed to their home station over the Big Four and other lines. To the T. and O. C. train leaving at 4 o'clock was assigned Company E of St. Mary's; Co. I of Sycamore was assigned to a Pennsylvania train.

Troop A, Cleveland cavalry, was scheduled to leave at 11:20 on a special train over the Cleveland, Akron and Columbus. The Cincinnati Field Hospital corps got away on a Pennsylvania train leaving at 1 o'clock.

There remain in Columbus between 1,500 and 1,700 soldiers to handle the strike situation under the command of Brigadier General J. C. Speaks.

The cost to the state for keeping the remaining troops in Columbus will be close to $6,500 a day.

DECLARED FOLLETTE'S NOMINATION ILLEGAL

Columbus, Aug. 4—Secretary of State Carmi Thompson today decided that the recent judicial convention that nominated E. B. Follette as the Democratic nominee for Common Pleas judge in the district composed of Perry, Athens, Monroe and Washington counties was illegal. The legality of Follette's nomination was contested by John Pyle, of New Lexington, who is the Republican nominee. The facts in the case were that only 12 out of 176 delegates attended the convention—seven from Perry county, four from Washington, one from Athens and none from Monroe. These 12 cast the entire vote for all the counties except Monroe, for Follette.

"The question to be decided," said Secretary Thompson, "was can the delegates present from any county, cast the entire vote of that county." He decided that they could not and on that ground held Follette's nomination illegal. Another convention will be called at which Follette will be nominated again. The next time a majority of the elected delegates will be present, it is said.

WANT ROOSEVELT TO INVESTIGATE

Greensburg, Pa., Aug. 4—The relief committee of the striking miners in the Greensburg-Irwin district today sent a letter to Colonel Roosevelt, asking him to come here and investigate conditions among the striking miners as he did in the anthracite region [illegible]. The letter briefly details the hardships the miners are compelled to face.

WIDER CONFESSES GUILT.

New York, Aug. 4.—Erwin J. Wider, the young cashier of the Russo-Chinese bank in this city, whose stealings from the bank's security box resulted in a loss of upwards of $500,000 to the institution, pleaded guilty to the indictment found against him in connection with the embezzlement. Wilder was remanded for sentence on Aug. 10.

SPARKS CAUSE BAD FIRE.

Delaware, Aug. 4.—A fire loss aggregating many thousands of dollars occurred yesterday afternoon at the farm of David Schuler in the western part of the county. A spark from a threshing machine set fire to one of four large wheat ricks, and hundreds of bushels of wheat, a big barn and valuable residence, together with a brand new thresher, were destroyed.

NEGRO BURGLAR WAS BUSY MAN

Lima, Aug. 4.—Six homes were burglarized by an unknown negro, who threatened to kill Mrs. Robert Rosman and fired three shots at John Kennedy. All of the rabberies were in Forest avenue, and a number of windows in other residences in that neighborhood bore evidences of being tampered with. Paul Cumberland, living in another section of the city, also was drugged and robbed. The negro suspected of all the robberies has escaped.

RIVER LOWEST SINCE 1864.

Burlington, Ia., Aug. 4.—The Mississippi river at Burlington today touched the low water mark established in 1864.

COMMUTED

Governor Grants Life Imprisonment to Mackley, Who Was To Have Been Electrocuted.

Columbus, Aug. 4.—Joseph J. Mackley, the Toledo murderer, sentenced to die in the electric chair after midnight tonight, was saved from that fate by Governor Harmon Thursday afternoon.

The governor commuted the death sentence to life imprisonment. He acted on the recommendation of the state board of pardons. At the July meeting of the board the case was heard and taken under advisement. Written report was made to the governor, in which the recommendation for clemency was made on the ground that the court record did not show a premeditation beyond a reasonable doubt.

Mackley shot and killed Caroline Hunt, a girl with whom he was infatuated. He had followed her to Toledo when her parents moved there and when she rejected his attentions she aroused his violent jealousy.

Mackley has a good record as a soldier. He served with the Eighth Regiment, O. V. I., in the Spanish war, and afterwards campaigned in the Philippines in the United States volunteer service.

HERO OF MAFEKING COMING TO AMERICA TO ENCOURAGE BOY SCOUT MOVEMENT

Photo by American Press Association.

Montreal, Aug. 4.—The fact that General Baden-Powell, hero of Mafeking and leader of the boy scout movement in England, is coming to Canada and will visit the United States is interesting to thousands of the younger generation in both countries. This famous British general has sailed from Liverpool, and when he arrives here the boy scouts propose to receive him most royally. According to inquiries made here as to the date of Baden-Powell's arrival from various places in the United States where the boy scouts are organized, it is thought their hero will be welcomed as sincerely across the border as on British soil.

NEW ENGINEER AT LIGHT PLANT STEPS DOWN AND OUT

As a Result the City's Darkness Had Short Existence and the Lights are Making a Fine Showing.

After two very forcible illustrations of his inefficiency as an engineer at the municipal electric light plant, H. E. Deenis, Mayor Ankele's appointee, was notified today by Service Director Taylor that his services would be no longer required. At the same time Engineer Carl Simpson, of the municipal water plant, was notified to again take charge of the engines at the light plant tonight.

The street lights burned last night in good shape. More than that, the current was turned on at the regular hour. There was no delay in starting the machinery, for a man was on duty who was intelligent enough to operate the engine without assistance. That man was Carl Simpson, and he will be on duty in this capacity until the civil service commission certifies a new list of eligibles to the board of control.

When Deenis left the plant Tuesday night, Simpson was in charge of the big engine and he remained in charge all night. The result was that the lights burned brilliantly and steadily, as they did last night when Mr. Simpson was again in charge.

New evidence of Mr. Deenis' ignorance of the machinery was brought to light when it was revealed that he failed to properly attend to the lubrication of the various parts of the engine Monday night. He neglected to fill the "dope" cups and [illegible] became heated, and Engineer Stankard, who was on duty that night, was compelled to stand for some time with an oil can held over the bearing, allowing it to drip on the heated parts to save shutting down the engine entirely and leaving the city in darkness during the late hours of the morning darkness.

In spite of all the evidences of inefficiency, the fact remains that Deenis passed an alleged civil service examination with an alleged high grade. The value of such an examination is apparent.

A meeting of the civil service commission will probably be held tonight. At this time a new list of eligibles will be prepared from the examination held last Friday night.

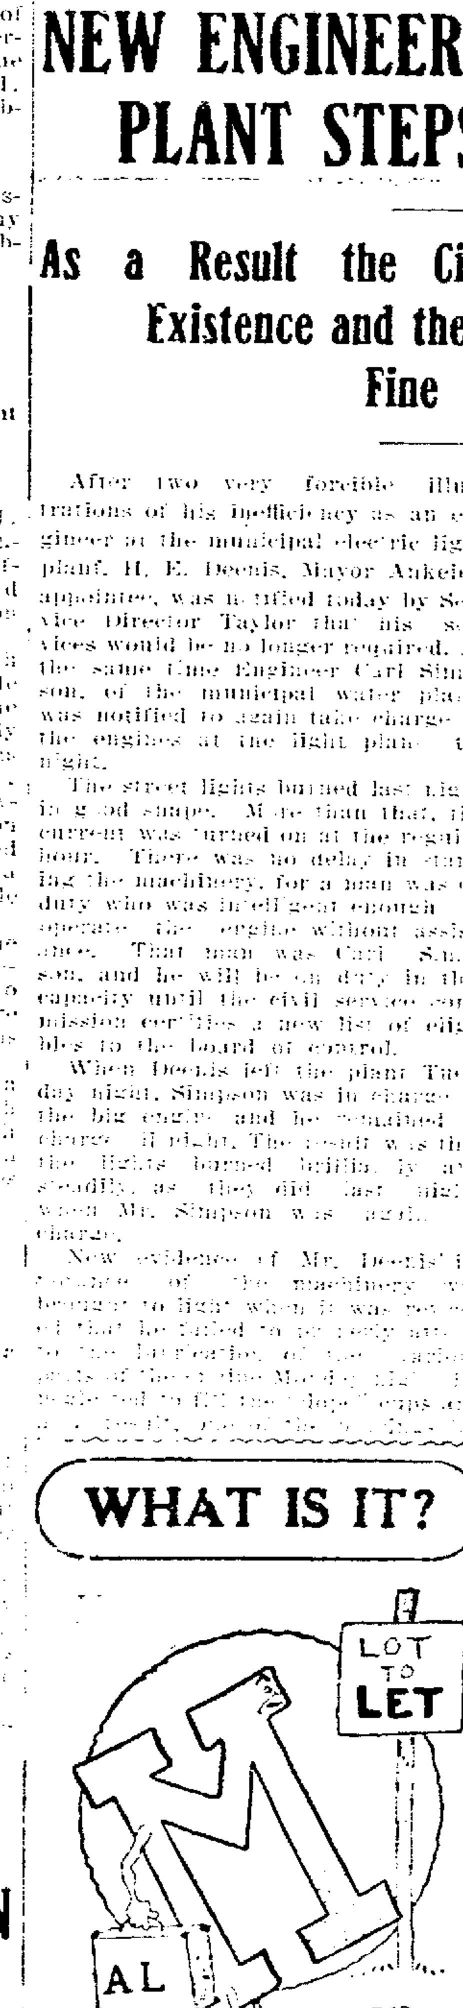

When seen this morning Mayor Ankele had nothing to say regarding the matter, except that Mr. Simpson would probably be in charge until the new appointee was named.

The mayor stated that he had mailed to Joseph Kaster a letter containing the charges upon which he was suspended. Mr. Kaster was absent from the city during the day, attending the Elks' outing at Buckeye Lake.

Mr. Deenis was seen today by the Advocate and with reference to his failure to pump the water from the cylinders, he said:

"Why, sure, I did [illegible] pump the water from the cylinders [illegible] did not know what [illegible] was [illegible] about. I [illegible] the water [illegible] [illegible]."

Mr. Deenis states that he feels he [illegible] given a "square deal" in the [illegible] to be placed right before the public.

MILLINER IS AFTER REWARD

Louisville, Ky., Aug. 4.—Mrs. C. A. [illegible], from whom [illegible] Chief of Detectives [illegible] learned the address of [illegible] Wood, now [illegible] charged with murdering Anna [illegible], has set up a claim for the rewards offered by the state, city and several citizens for the arrest and conviction of Woodling. Mrs. Munn in her letter says that she is "worried out with telephone calls and newspaper reporters," and claims her millinery business in Hume has been injured to such an extent that she will have to open for the fall trade in some other place.

STORY OF CHILD-WIFE IS PITIFUL

Suffered Many Tortures to Escape From Husband

MAN AIDED BY PARENTS

Strapped to Bed and Starved She Consented to Meet Him and Had Threat Cut.

Gary, Ind., Aug. 4.—Little Mary Daviso, the 13-year-old child-wife of Jamieo Daviso, who yesterday slashed her across the neck with a razor because she would not live with him after being separated by Mayor T. E. Knotts, told a pitiful story of the wrongs imposed upon her while lying at the point of death in Mercy hospital.

Startling tales of cruelty were learned by the police today of how the little girl was taken to the home of Daviso on several occasions and strapped to the bed and deprived of all her clothes. Imprisoned in this manner for hours, the little girl stubbornly refused to accept Daviso as her husband, saying she had not consented to a marriage and knew nothing of it.

Tortured almost every day in some manner, the girl continued to refuse Daviso until the Italian became half crazed to possess her and brought the facts of the case to light by attempting to take the life of the girl yesterday.

The attempted murder of the little girl aroused great feeling throughout the Italian colony in the city last night when it was announced and there was great indignation on the South Side, that almost threatened a mob.

Daviso, according to the information received by the police, has been working in the mills for a year and has accumulated about $500. Dazzled by this amount of money, the parents were willing to give up their daughter a week ago when the Italian appeared before them with a marriage certificate signed "William Stacey, Justice of the Peace, Chicago."

The girl declared she took no part in the marriage, and refused to live with him. For days she was locked up in a room by her parents without food and water and bound to the bed.

At last, weak from lack of food and in hope of making her escape she consented to see Daviso. It was then that she ran away from home and told the story to Mayor Knotts.

Daviso was ordered to keep away from the girl by the court until the marriage had been investigated and she was not annoyed until yesterday afternoon when he saw her sitting on the steps of her home.

Infuriated because she had told the story to the mayor, Davis whipped out a razor and slashed it across her throat.

He is now confined in the local police station, a nervous collapse. His preliminary hearing is delayed pending the outcome of his victim's condition.

YOUNG BRIDE WON BY WILSON

New York, Aug. 4.—Christopher Columbus Wilson, president of the United Wireless Company, who was indicted on two counts of conspiracy to defraud, appeared at the city hall last night, long after hours, and took out a marriage license. He gave his age as 61 and the bride gave hers as 18. She says she is Stella Lewis, a stenographer.

In reply to a question from the clerk, she smiled and answered "I think we'll be married tonight."

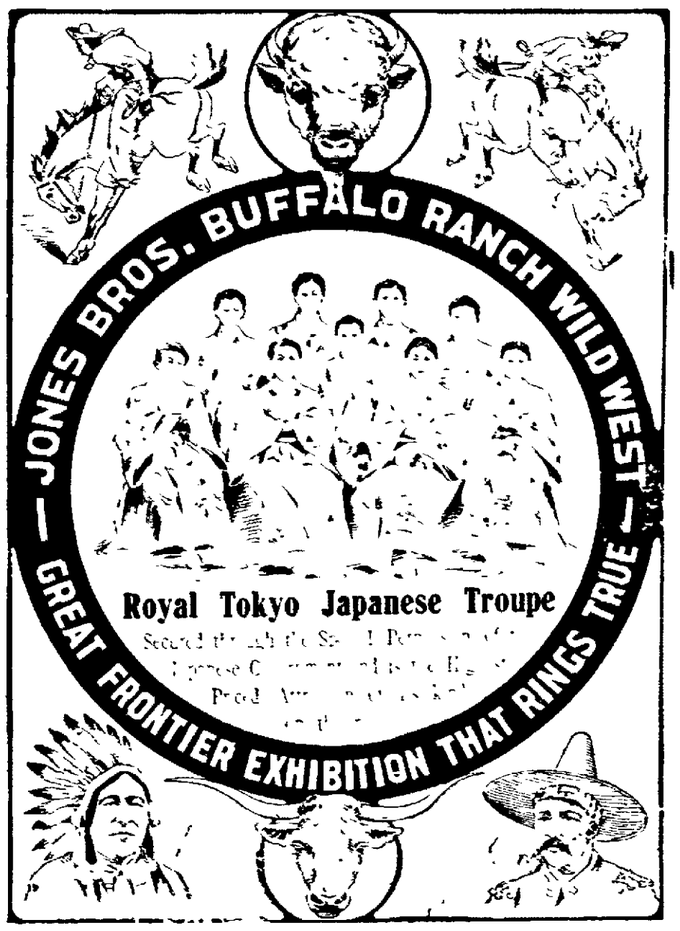

SHOOTS HERSELF IN HEAD.

Lacrosse, Wis., Aug. 4.—Mrs. Stanley L. Morgan, wife of a glovemaker, shot herself through the head at her home yesterday. Melancholy is the only motive known for the suicide.

SELECTED THE GAS ROUTE

Washington C. H., Aug. 4.—Harry Mitchell, 25 years old, lineman for the Bell Telephone Company, was found dead at his home last evening. He had stopped up the keyhole and turned on the gas, doubtless having been dead 10 hours when his body was discovered lying on the floor. The cause of the act is unknown. He leaves a widow.

In Woman's Realm

Mrs. Kate Schlegel and daughter, Miss Mayme Schlegel, are entertaining this evening with a six o'clock dinner, honoring Mrs. Corins and Miss Lena Corins of Indianapolis, and Miss Julia Wolfe of Columbus, who are visiting friends here.

The table appointments are arranged with a color effect of pink and white, these tints prevailing in the flowers which are carnations and in the place cards. Covers are laid for fourteen guests.

Miss Katherine Courtney of Mobile, Ala., was honored this afternoon by Mrs. Charles Montgomery who entertained with a one o'clock luncheon at her home in the Granville road.

The luncheon table was arranged with flowers and the following were guests: Miss Courtney, Misses Frances Wright and her guest Miss Hazel Hart of Zanesville, Miss Florence Montgomery, Miss Maria Trout, Miss Maria Potter Miss Anna Sprague and her guest, Miss Helen Daniels of Philadelphia and Mrs. Fenwick Ewing.

Miss Lera Trovinger of Coshocton, who is the house guest of Miss Christina Young of North Fourth street, has been the honor guest at a number of informal affairs. Mrs. John Fordella and Mrs. Willis Sachs both had a few friends in at dinner to meet her and several picnic parties to Buckeye Lake and Picnic Rock have been given.

Newark club women and friends of Mrs. Addison F. Broomhall of Troy, president of the Ohio Federation, will be delighted to learn that she has been asked to take part in the program given at the Chautauqua at Summerland Beach, Buckeye Lake. The following is a clipping concerning the Chautauqua.

Leading club women of the Ohio Federation will respond to toasts at the luncheon August 5 at Summerland Beach Buckeye Lake, in connection with the Chautauqua, which opened July 31 and continues for two weeks. The president of the Ohio Federation, Mrs. Addison F. Broomhall of Troy, has been invited to take part in the program, also the vice president of the southeast district, Mrs. A. P. Morris, president of the Columbus Federation, Mrs. Lewis C. Laylin, the president-elect, Mrs. George Hooper, and Mrs. James R. Hopley of Bucyrus, formerly of Granville.

There is much interest in the Chautauqua and many club women are planning to attend. Preparations have been made to entertain hundreds.

Rev. Dr. J. C. Arbuckle, presiding elder of the Lancaster Methodist Episcopal district, returned Wednesday, from a trip abroad. Dr. Arbuckle visited his old home in Carmanack, Scotland, which he has not seen since he was a child three years old. He also visited his birthplace, Glasgow, Scotland. At Carmanack, he met the sexton of the old church which his parents and grandparents attended. The sexton remembered Dr. Arbuckle's father and his grandfather, and told him many interesting things concerning the lives of both.

A party of ten left Monday morning for Buckeye Lake where they will spend the coming two weeks in camp. Those who composed the party are, Misses Clara Sharp, Laura Finzer, Mary Shorb, Minnie Grimm of this city, Stella Grimm of Cleveland, Ida Buff of Stonecreek and Maude Getz and Nellie Holder of Baltic, and Messrs Frank Rolli and Ben Angel.—New Philadelphia Times.

Mr. and Mrs. Seth Haight entertained informally at their home in West Church street, Monday evening with three tables of pedro. At the close of the interesting contest the prizes were awarded Mrs. Carl Dayton and Mr. Henry Eisengrein.

A dainty lunch was served to the following: Dr. and Mrs. H. B. Anderson, Mr. and Mrs. Charles Flory, Mr. and Mrs. Carl Dayton, Misses Helen Graff, Marion and Bernice Hatch, Messrs. Harold Franklin, Earle Russell, H. D. Eisengrein and E. R. Haight of Ashtabula.

The Haines family will hold a reunion at the fair grounds at Newark August 20. All members of the Haines' family are invited to attend the gathering and many from Coshocton county expect to be there. A program of addresses and music is being prepared for the event and refreshments will be provided for all.—Coshocton Age.

C. B. McCoy, Mrs. Corwin McCoy, Miss Iva McCoy and Uriah Brillhart of Newark drove to Warsaw Tuesday evening in Mr. McCoy's touring car and took dinner at Dr. Wright's hotel. Later they drove to Tonawanda and spent the evening at the summer home of Captain and Mrs. Lybarger.—Coshocton Age.

PLETCHER—GOOD.

A beautiful home wedding took place at the home of Mr. and Mrs. S. P. Good in Hanover at high noon on Wednesday, August 3, when their daughter Grace was united in marriage to Mr. Irwin Pletcher, a popular clerk of the Griggs store, and son of Mrs. Maggie Pletcher of Maholm street, Newark. Rev. R. G. Bowdon officiating. The ring service was used. Miss Jennie M. Scott and Mr. Charles W. Ikehorn acting as bridesmaid and best man.

The bride wore white silk, the bridesmaid a white lace dress and both carried white and pink carnations. Miss Mayme Ikehorn wore an embroidery dress of white and played the Bridal Chorus from Lohengrin. The house was decorated with ferns and sweet peas, and an very elegant dinner was served after the ceremony. The table was decorated in pink and white.

Among the guests were Miss Florence Vanatta, Mr. Wayne Welch, Mr. J. A. Kidwel, Mrs. Maggie Pletcher, Mrs. Hannah Powell, Miss Mayme Hoyt, Miss Jennie Scott and Mr. Charles Ikehorn all of Newark. Miss Mayme Ikehorn of Nashport, Mr. Stanley Good of New Castle, Pa., Mr. and Mrs. S. P. Good and Mr. James Good of Hanover.

Mr. and Mrs. Pletcher will be at home to their many friends at 27 Maholm street after August 15. The bride was a popular young lady of Hanover and her friends will miss her. Mr. and Mrs. Pletcher have many friends in Newark and Hanover who wish them much happiness.

Cup Omelets—Butter half a dozen custard cups and fill lightly with equal quantities of stale bread crumbs and cold meat, chopped fine and well seasoned. Beat three eggs, add one cupful of milk and divide among the cups, adding more milk if desired. Set the cups in a pan of hot water, and bake in a moderate oven until firm in the center. Turn on a platter, and serve with tomato or white sauce.

Pineapple Punch—Boil a pound of sugar and a quart of water for five minutes, strain, add to it the juice of one lemon and half pint of grated pineapple, stir and strain again; add sufficient amount of cracked ice to make it palatable, and half pint of finely picked pineapple and a few raspberries may also be added.

A Satisfying Food

Appetite is Nature's signal for fuel and repairs.

Healthy appetite calls for the simple food elements that supply the natural requirements.

Healthy appetite is satisfied when the proper kind and amount of food is taken into the body at stated intervals. But the wiles of the modern chef and caterer have created in most of us a false and often unnatural appetite which leads into all the different degrees of indigestion, dyspepsia etc.—food insanity.

Grape-Nuts

is a satisfying food—it is composed of the natural elements to satisfy the natural appetite and restore order in the digestive machinery which may have been thrown out of gear by improper though often "fashionable" foods.

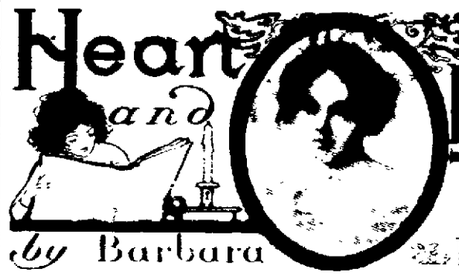

The crisp, firm, "nutty" granules of Grape-Nuts make honest mastication necessary. Its wholesome flavour makes it appetizing, and the albumens, carbohydrates and Potassium Phosphate from the whole wheat and barley, makes it a satisfying food—both to the sense of taste and to the body needs.

Heart and Home Talks

Success Dress.

The sayings of old Gordon Graham are not so frequently in the public mouth as they were a few years ago, but nevertheless they have lost none of their point. He understood human nature so well that they will be pertinent to men and things a hundred years from now.

In one of his famous letters to his son, he said "Clothes may not make the man, but they make about all of him, except his hands and feet, during business hours, and that's a considerable portion of the human animal."

It is a bit of advice useful to the business woman as well as the business man.

It is not contended that clothes will do one's work properly or supply the lack of brains. But clothes make the impression that secures one the work. One's appearance is the first thing to speak for one in seeking a position. The position secured, it is up to the seeker to make good. But the first essential is to get the position, and in this clothes nowadays play an important part.

If one has strong letters of introduction, backed up by excellent references and proof of work done, a shabby appearance will possibly not count against one. But without these a person should wear success dress.

By this is not meant one's costume should be expensive or elaborate. Elaborate dress is entirely out of place in business. But one's appearance should be smart, up to date, well groomed.

A woman, in discussing a business acquaintance, said: "She is a wonderful woman. She has studied at the Sorbonne and at some of the best universities of [illegible] has been pretty [illegible] remarkable [illegible] relatively so shabby in [illegible] simply can't get a [illegible] believes she can do anything [illegible] they look at her."

This is quite true. A busy man doesn't stop to listen to the credentials of a stranger if his first impression is that she is not what he wants.

The superintendent in large [illegible] glances over the little army of applicants and mentally puts aside as not worth considering the girl who is careless and untidy in dress.

A really clever, brilliant man secured an important position upon a newspaper through influence. But there was a distinct wave of disappointment throughout the entire force upon his first appearance. He was distinctly shabby, not to say "seedy." He looked as if he belonged to the clan who sleep on park benches. Not one in the office thought he could do the work expected of him. His appearance made it doubly hard for him to work into the good-fellowship of that office. His path would have been much easier and pleasanter had he appeared in clothes that were pressed and linen that was immaculate.

Since these conditions are there is no use in ignoring them. Wise is the business woman or man who admits their influence and acts accordingly. It is simply battering one's head against a stone wall to try to overcome them. It hurts oneself, but does little harm to the wall.

CONVENTION WILL ADJOURN THIS EVENING

The convention of the Young People's Societies of the Cleveland District of the German Evangelical church which convened in St. John's Evangelical church, on South Fifth street, this city, Wednesday, will adjourn Thursday evening. About 40 delegates are here from Cleveland and Sandusky, representing 12 Young People's societies. Business sessions consisting of reading and discussions of papers and questions pertaining to the work of young people's societies are being held. Thursday morning an able paper by Miss Florence Weiler on "Young People and the Sabbath Day," was animatedly discussed, while round table discussions are proving quite interesting.

Thursday afternoon the reports of committees were received and officers were elected.

The convention will close Thursday evening with a sermon service, to which all members and friends of the congregation are invited. Rev. O. Kaiser of Cleveland will preach the sermon and Rev. S. Gerhard of the same city, will assist in the [illegible] services.

Many of the delegates will leave Friday morning on special B. & O. trains for Cleveland and Sandusky.

Wednesday afternoon the delegates and members of the local society and their friends enjoyed an hour's ride on the lake. Three extra cars conveyed the excursionists to the lake. Supper was served amidst the strains of an orchestra to more than 150 participants at the Glass Hotel. A season of song and toasts, led by the master of ceremonies, the local pastor, Rev. H. M. Wiesecke, brought this part of the program to a close. Immediately after the supper the delegates enjoyed an hour's ride on the lake, and left at various times during the evening for Newark, to resume the work of the convention Thursday.

NEW CORN CURE A REAL MARVEL

Guaranteed and Absolutely Painless.

A corn cure that is painless and that will really do the work has finally been discovered. Heretofore, the poor sufferer from corns has been pestered with "drawing" salves and plasters that swell the corns, and has had finally to gouge out his corn and inflict upon himself still greater pain. With Hall's Painless Corn Cure all pain ceases on the first application, and then finally the corn comes right off easily and painlessly. You don't have to dig it out and run the risk of drawing blood, making your corns still more sore or getting blood poison.

Hall's Painless Corn Cure is easier to use than any other; it takes a few seconds to apply it. It is guaranteed absolutely in every case. You must be satisfied, or back goes your money.

HALL'S PAINLESS CORN CURE

Lasts longer than several packages of any other corn treatment, and you are sure to get rid of corns and bunions. Sold at 25 cents a bottle at

NEWARK'S BUSINESS PROBLEM

Our City Councilmen, Business Men and citizens generally, in their discussion of the proposition to purchase the old water works plant have a complete right of opinion. Whatever the opinions of one man or one set of men are the right of opposite opinions by another man or set of men should be fully conceded. And let every citizen be accorded this right of opinion without questioning the honesty of his motives.

If the discussion and thoughtful consideration of this question is conducted on these lines, the final agreement or settlement can be counted on as being what is absolutely best for the city's business interests

The time has arrived when the city's most intelligent, experienced and active business men have gotten awake to the necessity of having this water works problem settled on the wisest plan for immediate, practical, beneficial results by which the city can get a revenue to meet the interest upon its bonds and the expenses of operating the municipal plant, which now foot up about $34,300. As the old plant now furnishes a gross revenue of $31,000, it can be readily seen that if it can be purchased and added to the municipal plant the city's total gross revenue will soon reach $40,000.

Unless there are legal obstacles that will make the purchase of the old plant impossible, it will be up to the opponents of the purchase to make a showing as to what time and at what cost the municipal plant can be put on a business basis by which the city's treasury will be replenished with $31,000 gross annual revenue.

THEY OUGHT TO KNOW ABOUT GRAFT

This plank in the Republican platform adopted at Columbus is unlike anything ever seen before in a Republican state platform in Ohio. Graft is not partisan; neither are grafters confined to any political party. The Republican party condemns all forms of dishonesty and corruption and believes in punishing the offenders. We favor making the penalty more severe."

One of the members of the committee on resolutions was Rud Hynicka who was obliged to disgorge thousands of dollars which one of the Cincinnati probe committees found against him as treasurer of Hamilton county; another member of the resolutions committee C. J. Mattern, of Dayton, was one of Mark Slater's attorneys when Mark was prosecuted last winter for grafting in the state printer's office.

Does Rud Hynicka believe he got off too easy? Does Mr. Mattern think the penalty imposed upon Mark Slater should have been more severe?

WHEN T. R. STARTS WEST THIS MONTH.

Colonel Roosevelt may not take part in the Ohio campaign.—News Item.

JOHNSON RESIGNS CONGRESSIONAL NOMINATION

Congressman "Rom" Johnson of the Ironton district has resigned to the congressional committee the re-nomination given him at the May primaries. Without stating specifically his reasons for so doing, he says in his letter to the committee that he would not be able to serve a full term if re-elected, and that he steps aside at this time in order that his successor may be chosen without the expense of a special election.

Those who know his real motives are not surprised that Mr. Johnson is willing to retire from congress at the end of a single term. It cost him a small fortune to secure the nomination, for which he made several contests before he was successful. With the realization of his ambition, however, he drained the dregs of disappointment. Although not aligned exactly with the insurgents, he was somewhat independent and, like many other men who enter congress full of hope and enthusiasm, he tried to "do things," as the saying goes.

But when Mr. Johnson got to Washington he found that there are only three or four men in congress who "do things," and that all the others must bend a suppliant knee to that little coterie, if they belong to the Republican majority, or else be classified as insurgents who, according to Speaker Cannon's recent manifesto, "ought to be shot."

Such is the blight of Cannonism upon that much vaunted "representative branch" of the federal congress. Men of character, conscience and zeal enter its portals with pride and hope and determination only to go down before the gavel of a Czar called Cannon as unheard and as unheeded as victims once were crushed under the Juggernaut car.

Mr. Johnson may have a still deeper reason for stepping aside at this time than that which appears in his letter of declination or which he may have confided to his friends. Insurgency is abroad in the land. It is spreading among voters who have caught the spirit of some members of congress who are leading a forlorn fight against Cannonism, Aldrichism and Taftism within their party. Mr. Johnson may scent the battle from afar. At any rate he wisely chooses to retire upon his own responsibility.

There are other candidates for congress in Ohio who for better reasons would do well to follow his example; but as they show no inclination to do so it rests with the voters in their districts to relegate them to the scrap pile upon which sand-patism and stand-patters must be heaped before any of the reforms can be accomplished for which insurgents are rendering in their efforts to reform their party from within.

It would be better for these insurgents and all such voters to heed the advice of Eugene Foss that Massachusetts Republican who tried so many years to reform his party but failed to make headway against the senator of his state Crane and Lodge, two of the chief props of the Taft administration. Mr. Foss swung over into the Democratic ranks a year ago and was elected to congress at a special election this year in which a 14,000 Republican majority was turned into a majority of 6,000 in his favor.

Addressing Republicans of the Rochester, N. Y., district during a special election some weeks later, Mr. Foss said to the so-called "insurgent" voter, "come over into the Democratic party, where you belong; it is no use trying to be an insurgent and a Republican at the same time; don't be half Republican and half Democrat, be a real Democrat and you will accomplish something." It was such good advice that a stand-pat majority of 8,000 in the Rochester district was changed to a 3,000 majority for the combined insurgents and Democrats. That is also good advice for every congressional district in Ohio, including the district Mr. Johnson tried to represent but couldn't because of the blight of Cannonism.

LOCAL CAMPAIGN OPENING AT DEM. CLUB FRIDAY NIGHT

Next Friday night, August 5, being the regular meeting of the Licking County Democratic Club it was decided at the meeting of the Executive Committee on Saturday to hold an open meeting at that time, when all the local and district candidates will be present and address the club. IOWA PROGRESSIVES DOWN REGULARS IN STATE CONVENTION

Des Moines, Ia., Aug. 4.—Republican Iowa wrote herself vigorously progressive yesterday at a convention which was in an uproar most of the time.

Senators Cummins and Dolliver and the insurgent delegation at Washington were enthusiastically indorsed.

The new tariff law was denounced as a failure in the light of the party pledge of 1908.

President Taft received the most tepid of lukewarm indorsement.

A sop to harmony was flung out in the indorsement of the administration of Governor Carroll.

An attempt to use the steam roller to make the state central committee overwhelmingly progressive was called off, probably at the hint of Senator Cummins.

Senator Cummins was temporary chairman; Senator Dolliver permanent chairman.

The progressive majority ranged close to 300 on every question.

The resolutions committee was progressive, six to five.

The foregoing is a synopsis of the day's events. To it may be added cheers and jeers, applause and hisses, music and howls of discord.

Pertinent Question.

If protectionism has nothing to do with prices, why do the protected industries yelp so loudly when there is any talk of reducing schedules?—Louisville Courier-Journal.

POSTAL SAVINGS BANKS ARE NOT NEW IN THE PHILIPPINES

Washington, Aug. 4.—While Americans are wondering where and how the postal savings system is to be established the untutored native may wave his passbook and remark that in the Philippines the postal savings bank is an old thing. Whether beads and clam shells and brass rods are received as deposits is not mentioned, but the main fact is that the wards in the far Pacific have a privilege not yet accorded to their guardians.

A recent report received at the treasury department shows that there are in the islands 236 postoffices at which deposits are received. There were 12,731 depositors and the amount of the money they had placed in the care of the government was 1,621,270 pesos or Philippine dollars, worth 50 cents in United States money. The government in using the money is protected by the guarantee of banks with which a part of the postal funds have been deposited. Investments have also been made by the government officials, in charge of the postal savings, in Manila city bonds and railroad bonds and in first mortgages. Among the depositors are 3,542 Americans, 1,799 Filipinos, 398 Europeans and 261 Asiatics. The rate of interest on deposits is two and a half per cent, but the government reserves the right to change the rate at the end of the year.

The system has worked satisfactorily to all concerned. The Philippines were favored with postal banks in advance of the states because they were not obliged to await action by congress. When the president became convinced a few years ago that postal savings would be a good thing for the Filipinos he ordered the system established and it was done. Congress postponed action for years and it was not until the closing hours of the last session that a postal savings law was passed.

The popularity of the law has been proved by the great number of letters from people asking that postal banks be established in their towns and from bankers asking that a part of the deposit funds be placed with them. The trustees of the system, Secretary Franklin Mac Veagh, of the treasury, Postmaster General Frank H. Hitchcock and Attorney General Wickersham, have full authority to decide where and when postal banks shall be established. They have decided upon nothing yet except that the postoffice in this city shall be one to receive deposits in order that there may be a demonstration of the system under the eyes of congress.

A committee of experts appointed by the trustees are working out the details of the system, which are many, and it is probable matters will be in such shape that the trustees can take definite action in the fall.

With a view to securing the information of experts and dependable facts for recommendation to Congress regarding necessary improvements Secretary Ballinger of the Interior Department, has arranged for an inspection of some of the national parks. The men chosen for the work are Clement S. Ucker, chief clerk of the department and R. B. Marshall, chief topographer of the Geological Survey.

In connection with their visit to Glacier National Park, a wonderland of living glaciers and wild mountain scenery reserved as a playground for the people at the present session of congress, a question arose to the payment of their expenses. It seems that Congress appropriated $15,000 for the "improvement of Glacier Park by the construction and repair of roads and trails."

The question was whether Ucker and Marshall could use a part of that appropriation in securing a pack train, guides camp equipment, etc., Pullman and incidentals, not to exceed $5 a day from Devils Lake North Dakota, to Glacier Park.

The problem was referred to Comptroller of the Treasury Tacewell, whose decision on the expenditure of government funds is legal. He answered that it is an administrative question. If, in carrying out the order of Congress to "construct and repair roads and trails" it is necessary to first have an inspection, so that the work may be done to the best advantage, then the witnessed expenses of the inspectors can be paid out of the $15,000 appropriation.

Owners of coal mines in England are considering life-saving plans similar to those that will be carried out by the newly created bureau of mines in this country. The scheme Consul Walter C. Hamm, of Hull reports, is to establish rescue stations near groups of mines.

It is proposed to use Durham field to establish a station for the housing of motors equipped with pumps powerful as those of the largest engines in the city fire department service, breathing helmets and other apparatus and quarters for six or eight highly trained men. A liquid air plant will also be erected. Direct telephone connection will be arranged with all the mines in Durham county, the most distant could be reached in an hour.

The method is to make use of a head dress, to be supplied with fresh air by means of hose, through 50 yards of armored tubing and fitted with telephones. It is thought that in most cases 50 yards will be sufficient, and it is proposed that each colliery should be equipped with one or more of these. To cope with cases where longer distance than 60 yards from respirable air might have to be dealt with the use of "arolith" helmets is proposed supplied with air in a liquid form. These are no valves or complicated parts to get out of order, and they can be used without any special training. A supply of these would always be kept ready for use at the central station.

Now that the summer season is on in Washington and most of the members of the diplomatic corps have flitted away to the cooling breezes of the north shore or of the mountains, the attention of the public can be centered without distraction upon the Central American junta which maintains itself at the cafe of the Arlington hotel.

The gathering of exiled Central Central American revolutionists in New Orleans could hardly be more picturesque or more imaginative than the few midsummer diplomats who gather at these headquarters and, to the tinkle tinkle of the cracked ice in the long glasses, discuss the affairs of the five republics—those events which have come to pass and those which will come to pass, and, for the most part, those which have not nor ever will come to pass, or this little left behind fragment of Washington's diplomatic coterie is nothing if not imaginative.

The midsummer sun beats down hot on the striped awnings and the pavements without bake in the heat. Under such circumstances the whir of the electric fan and the tinkle of the cracked ice encourage meandering thoughts, which percolate through the drowsy atmosphere until a whiff from the hot street explodes them like toy balloons. What revolutions are not stamped out, what diplomatic coups are not dealt under the langurous influence of these electric fans and the seductive tinkling of the tall glasses!

A thousand times is the United States, as friend or foe, crushed under foot or exalted to the skies. A thousand times does the valor of the great generals of the South American republics gain bloodless victories. A thousand times is the diplomacy of Secretary Knox torn to tatters by clever strokes,—all until one emerges from the cool depths under cover of the striped awnings to realize that the world is very matter of fact and very common place again.

But, such as it is, the junta serves its purposes. Many a correspondent hard put to it to find substance for his copy seizes upon the meandering thought and makes a column of it for the delectation of the great American people. A hundred times in the summer months is the ide of affairs turned in Central America in some fashion or other in that darkened room only to be turned back again by the announcement from the State Department that things are just as they have been. One day all is for Madriz another it is for Estrada. The next Whoop la!—Zelaya is coming back to stir up trouble or a ship has slipped away from Hampton Roads to blow Hanague into a sea.

What junta gossip fails to bring forth is supplied by rumors from New Orleans or Mobile,—long since called the banana route by the news gatherers. In the past the banana route has occupied first place, but that has reached its zenith. The colony of revolutionary exiles in New Orleans have done much to enliven the slow hours. Hardly a fruit boat comes in but some ragged figure runs down the gang plank to bear the news of home and the cause to the few who gather about the tables of an obscure cafe near the water front. Then it goes to the nearest newspaper office and behold, a new revolution is launched to overthrow one or another tyrant,—the extent of which is confined to four hungry men at a cafe with combined resources of thirty-six centavos.

There are other odd channels through which rumors of affairs in foreign countries are borne to the United States, most of them are as fantastic as the reports originating in New Orleans or the Arlington bar. Van Couver brings forth some strange stories of oriental affairs. Formerly Shanghai was the home of the unscrupulous correspondent. Rumor thrives in Shanghai, China, being more or less of a mysterious empire and telegraph service poor, it was easy enough to tell a thrilling tale of things happening in the interior and get away with a few drinks at the club bars before the tale could be discounted. But Van Couver has dimmed the glory of Shanghai so far as the United States is concerned. Cable tolls from the Orient are high if one has no facts but the word of mouth of an itinerant tramp steamer captain or the oath of a sailor who has not seen a polished bar for forty days and has a bad thirst. Therefore it is that one sees strange tales of Japan under a Van Couver date line. The tramp steamers can get to Van Couver a few days sooner than they can reach San Francisco and the rumor borne over the seas is old by the time San Francisco gets it from the Orient if it ever comes that far.

All Straw Hats reduced in price at EMERSON'S. 4d2

THE KANSAS FIGHT BETWEEN REP. FACTIONS

Topeka, Kan., Aug. 4.—Latest returns from yesterday's primaries show the downfall of four of the six stand-pat congressmen of Kansas.

The victory of the insurgents was even more sweeping than indicated by the figures available at a late hour last night, when only two of the four who are now known to have fallen by the wayside were thought to have met defeat.

Regular Republicans are dazed as a result of the landslide.

The majority of Governor W. R. Stubbs, insurgent candidate for renomination, is believed to be fully 20,000, or 2000 more than he had over Cyrus Leland two years ago. This insures the insurgents control of the state committee of the party.

The four stand-pat congressmen who were buried under the avalanche of insurgent votes were Charles F. Scott, in the Second district; J. M. Miller, in the Fourth; W. A. Calderhead, in the Fifth, and William G. Reeder, in the Sixth.

The two congressmen of the stand-pat variety who managed to survive were Daniel R. Anthony, in the First district, and Philip P. Campbell in the Third.

Nominees in six of the eight Kansas congressional districts are pledged to insurgency. The two insurgents in the present congressional delegation, Victor Murdock and E. H. Madison, were renominated without opposition.

Daddy's Bedtime Story — The Story of the Two Coins

Buried It in the Earth

ONE day Jack's teacher had been telling the class about the mint in Philadelphia, where the money is made, and Jack had been greatly interested. That evening he asked daddy to tell him and Evelyn a story about money.

"Once upon a time," said daddy, "there were two coins lying side by side in a mint. They were both bright and new and shiny, but one was only a copper penny, and the other was a gold piece worth many times as much as the penny.

"'Get away from me,' said the proud gold piece to the penny. 'You are only copper and worth very little. You will soon lose all your luster and become dull, while I shall remain bright and shiny and shall do great work in the world.'

"The poor copper penny could not answer for awhile, but at last he said, 'Well, perhaps I shall be able to do some good in the world, even if I am not worth much. Sometimes even a little piece of money, if it is used in the right manner, can do good. Perhaps it will be my good fortune to make some one happy, even if I am only a copper piece and worth not nearly as much as you, Neighbor Gold Piece.'

"After a time the two pieces of money were sent out into the world. The gold piece fell into the hands of a miser, who hid him in a money chest with many others of the same kind. Then a little later the miser thought he was going to die, so he took the chest and buried it in the earth. Soon aferward he really died, and no one knew where he had put all his money. The gold piece is there yet, buried in the ground, and it has become so dark and dirty that no one would even think of picking it up. Of course it has never done any good in the world to any one."

"And the copper penny, daddy?" asked Evelyn.

"That was given to a little boy for running an errand," said daddy. "He brought it home, and because his little sister liked it he gave it to her and made her very happy for a whole day. The next day an old beggar asked her for a penny to buy bread with, so she gave the penny to him for food. From the baker to whom the beggar gave the penny it passed to a man who worked for the baker. He gave it to his little boy. The little boy saved it, with others, until he had enough pennies to buy a birthday present for his mother. And so the little penny went on and on and on, doing good in the world, until it was quite worn out with all the handling it received. And I think that was a better end than that of the proud gold piece buried in the earth." Jack and Evelyn thought so too.

Boy Causes Fire.

A small boy playing with matches was responsible for two barns catching fire this morning. At 8:25 the Central and North End fire companies were called to Woods avenue and Ash street to extinguish a blaze in two barns, which were set on fire by a boy playing with matches. The firemen did good work and the damage to the structures and their contents was slight.

Opens Dental Office.

Dr. Earl J. Russell, a son of Mr. and Mrs. W. G. Russell of this city, has opened a dental office at 24 1-2 West Main street. Dr. Russell is a well known Newark man and is a graduate of the Newark high school in the class of 1907. He graduated from the dental department of O. M. U., Columbus, with high honors. He had a high average at the state dental examination and is well qualified to practice dentistry. He has furnished his office with the most modern appliances known to dental science, and his work will be done in the most sanitary manner. Dr. Russell would be glad to have his friends call and inspect his office.

NO MOTIVE FOR MURDER OF LAKE VICTIM ADVANCED

The investigation into the cause of the death of Charles L. Condit, which has been conducted by Coroner Marriott, was interrupted yesterday when he was switched off the trail by the death of M. W. Davis. When he received the word of Mr. Davis' death, the coroner was en route to Buckeye Lake to pursue his investigations further.

It is the opinion of many that the efforts of the coroner to make a sensational murder out of Condit's death have fallen flat. The coroner admits that the man was not drowned. As yet he has not made any announcement as to what was the cause of death.

A thorough investigation by the Advocate has brought to light no motive for murder. None of the habitues of the various places near where the body was found ever saw the man before, and they state positively that there was no talk Sunday of any detective being there.

Much stress has been laid on the fact that shots were heard in the neighborhood Sunday night, but the officials admit that there were no bullet wounds in Condit's body, so the [illegible] of shots would have no bearing on the case.

The position of Condit's body in the water and the fact that no water was found in his lungs does surround his death with some mystery, but the absence of motive for murder makes the theory seem far fetched. The theory has been advanced that Condit was one of those who attempted to jump [illegible] the boat, that he fell into the water, and that his head was struck by one of the rapidly moving propeller blades.

This is [illegible] by the officials and [illegible] who was operating the boat. The latter states that as soon as the boat careened, he shut off the engine, which stopped the propeller. If he had been killed in this manner the officials claim that the body would have shown indications of having been in the water twelve hours instead of six as is their claim.

The testimony of all the witnesses has been typewritten at the [illegible] who served Dr. Wivtaich and Dr. Marriott, and is ready to be filed with the coroner's report whenever it is made. His verdict in the case is awaited with much interest.

CORONER MADE FORMAL INQUIRY INTO DAVIS DEATH

Coroner L. L. Marriott made a formal inquiry into the death of M. W. Davis, who was found dead in the road near Buckeye Lake yesterday afternoon. Death was due to heart trouble, as was stated in the story printed exclusively in the Advocate.

The funeral services over the remains of Mr. Davis will be held Friday afternoon at 2 o'clock from the Hebron M. E. church. Rev. Mr. McCall of Caldwell, former pastor of the Licking church, will have charge of the services. Burial at Hebron.

MOTHER'S FRIEND

A LINIMENT FOR EXTERNAL USE.

Cheerfulness and a bright disposition during the months before baby comes, are among the greatest blessings a mother can bestow upon the little life about to begin. Her happiness and physical comfort will largely govern the proper development of the health and nature of the child. Mother's Friend contributes much to the mother's happiness and health by the relief and mental comfort it affords. It is a liniment composed of penetrating oils and medicines which lubricate the muscles and tendons of the body, soothe the swollen mammary glands, cause a gradual expansion of the skin and tissues, and aid in the relief of nausea. The regular use of Mother's Friend greatly lessens the pain and danger when baby comes, and assures a quick and natural recovery for the mother. Mother's Friend is sold at drug stores. Write for our free book, containing valuable information for expectant Mothers.

FEET TIRED SO TIRED?

TIZ Makes Sick Feet Well, No Matter What Ails Them.

TIZ acts at once and makes tired, aching, swollen feet remarkably fresh and sore proof.

It's the sure remedy, you know, for everything that gets the matter with your feet. It's for sore feet and for sweaty, bad smelling feet, and for corns, callouses and bunions, too.

"For years I have been troubled with sore and tender feet; suffered intense pains. Have had the assistance of physicians without relief. I bought a box of TIZ, which worked a perfect cure, as it has with a great many of my friends. I would not be without it. All it requires to be known to be universally used." A. F. Dreutzer, Chicago.

TIZ is not a powder. Powders and other foot remedies clog up the pores. TIZ draws out all poisonous exudations which bring on soreness of the feet, and is the only remedy that does. TIZ cleans out every pore and glorifies the feet — your feet.

You'll never limp again or draw up your face in pain, and you'll forget about your corns, bunions and callouses. You'll feel like a new person.

TIZ is for sale by all druggists, 55 cents per box, or it will be sent you direct, if you wish, from Walter Luther Dodge & Co., Dodge Bldg., Chicago, Ill.

HOT TIME

EXPECTED AT THE LEGISLATIVE REUNION AT CEDAR POINT.

Senator Burton Has Fire in His Eyes and Judge Brown, Late Cox Candidate, Also on the Ground.

Cedar Point, Aug. 4.—The annual reunion of the Ohio legislature began here today. It was instituted years ago to give the lawmakers a chance to discuss their sins but the lawmakers turned it into a meeting to denounce the muckrakers who have exposed these sins, although they always ended by banqueting these same muckrakers and singing "They Are Jolly Good Fellows," and expressing the hope that they would do better next time.

The annual reunion is a time of good feeling and good feeding. This year there is real excitement in the air. Judge O. Fritt Brown arrived from Dayton yesterday with a grim look in his eye. Senator Burton is coming today. The senator has announced his intention of putting Cox out of business here and elsewhere.

Cox, whose comment is said to have been "G fudge," has gone to French Lick to find excitement, but Judge Brown, the real victim of the Cox-Burton controversy is on the job. Judge Brown says he means to see Burton

Judge Brown also says grimly that he "believes he knows which story is true," referring to the Cox-Burton versions of what happened to the Brown boom in the Columbus convention.

Warren G. Harding, the Republican nominee for governor will be here and make a speech. Senator Dick will be here and if the strike situation at Columbus will permit Governor Harmon will put in an appearance.

RAILWAY AFFAIRS

On account of increased traffic conditions on the Baltimore and Ohio Southwestern railroad, and with a desire to further safeguard trains in transit, it was determined to equip the line with the block system. The heaviest traffic being on the Indiana Division, instructions were issued to get it ready in the quickest possible time.

The superintendent of telegraph received notice to proceed with the work on July 15, and in six and a half days, with three ordinary gangs of men under his direction, 183 miles of block wire was strung on the entire main line of the Baltimore and Ohio Southwestern across Southern Indiana, from Storrs to the Wabash river at Vincennes, and from North Vernon to New Albany, on the opposite side of the Ohio river from Louisville. In this work 62 offices were equipped with batteries and instruments and put in operation. This is a remarkable record, considering the territory covered and the number of offices equipped completely and in readiness for operation.

AN IDEAL TONIC LAXATIVE.

Seaver's Laxative Tonic Tablets Are a Blessing to All Sufferers From Chronic Constipation.

The glad tidings will be gratefully received by thousands of suffering women as one of the greatest blessings of the century, that at last there is now being prepared an infallible remedy for that most neglected of all ailments, CONSTIPATION.

A relief and positive cure is within the reach of every sufferer and a fair trial may be had for the small sum of 25 cents.

A single box of Seaver's Laxative Tonic Tablets will convince any fair minded person that the remedy they have looked for in vain is now to be obtained at the Erman & Son's drug store.

These wonderful little tablets produce results right from the first and in an incredibly short time the functions of the bowels and liver will be found working in the manner that nature intended they should.

Try a box of Seaver's Laxative Tonic Tablets with the understanding that if no relief is obtained your money will be refunded as cheerfully as you paid it.

ITCHING, BLEEDING ECZEMA WAS CURED

By Cuticura After 5 Years of Suffering Beyond Description — Thought Death was Near — Calls Cure Wonderful.

"No tongue can tell how I suffered for five years with itching and bleeding eczema until I was cured by the Cuticura Remedies, and I am so grateful I want the world to know, for what helped me will help others. My body and face were covered with sores. One day it would seem to be better, and then break out again with the most terrible pain and itching. I have been sick several times, but never in my life did I experience such awful suffering as with this eczema. I had made up my mind that death was near at hand, and I longed for that time when I would be at rest. I had tried many different doctors and medicines without success, and my mother brought me the Cuticura Remedies, insisting that I try them. I began to feel better after the first bath with Cuticura Soap, and one application of Cuticura Ointment.

"I continued with the Cuticura Soap and Cuticura Ointment, and have taken four bottles of Cuticura Resolvent, and consider myself well. This was nine years ago and I have had no return of the trouble since. Any person having any doubt about this wonderful cure by the Cuticura Remedies can write to my address. Mrs. Altie Etson, 93 Inn Road, Battle Creek, Mich., Oct. 16, 1909."

Cuticura affords the most economical treatment for affections of the skin and scalp [illegible] to age. A cake of Cuticura Soap [illegible] Cuticura Ointment are often sufficient. Potter Drug & Chem. Corp., Sole Props., Boston, Mass.

OFFICIAL MAKES CLAIM FELINES BREED DISEASE

What a Government Official Thinks of Tabby.

Cats are known to carry in their fur the germs of such dreaded diseases as tuberculosis, smallpox, scarlet fever and diphtheria.

They communicate diseases to children.

They are as susceptible to hydrophobia as dogs.

Cats spread ringworms.

They kill [illegible] and [illegible] game and song birds in New York state alone each year.

Only about five per cent of them are mousers.—[illegible] Biological Survey, United States Department of Agriculture.

Washington, Aug. 4.—Poor Tabby, purring upon the hearth, petted and pampered by the whole family, is now declared by a government scientist to be an agent of the most deadly germs, spreading disease and death among those who fondle her.

Investigation has proven that in a cat's sleek, soft fur, upon which the baby delights to rub its cheek, lurk the germs of tuberculosis, of smallpox and that deadly disease of babies and children, diphtheria.

The cat is a roaming animal. Even the most carefully watched house [illegible] will slink out at night, and it is then that they come in contact with infected, dirty cats, which perhaps live in squalid shanties among diseased [illegible] people. Its long fur affords a natural breeding place for the germs.

"The cat returns to its home thoroughly inoculated. The mother smiles as the baby tumbles about on the floor with Tabby. When the child is stricken every disease breeding source is considered except the family cat," says Dr. A. V. Fisher.

It is a noted fact that people who would not touch a dog think nothing of fondling and kissing cats. Felines are particularly fond of jumping upon the beds of their masters and cuddling close to them. Babies are allowed to play freely with cats.

Practically the only thing to be feared from a dog is hydrophobia. To this terrible disease, says Dr. Fisher, cats are as susceptible as dogs, although they do not bite people as often, yet cases of hydrophobia from cat bites are not infrequent.

The Biological Survey is now working on plans to have laws passed in the District of Columbia as a guidance to all the states, to license cats, because, they say, most of the trouble comes from stray cats. The danger in the house cat, living in a clean home, comes mainly through its contact with alley cats. Licensing would permit the killing of stray cats.

Data is now being gathered by the survey upon the subject of disease infection by cats. Dr. Fisher hopes soon to publish a bulletin citing specific instances.

Two cases are given by a prominent French scientist, M. Bergeon, of cats which were infected with tubercular germs through contact with persons afflicted with the disease. In both instances the cats were owned in families where young girls died from the malady. The death of the cats occurred shortly afterward. The doctors had noticed the fondness of the girls for the cats. A post mortem examination of the cats was accordingly made, with the result that in both instances unmistakable traces of tubercular infections were found.

The next charge brought against the cat by Dr. Fisher is that it spreads ringworms, a very painful and sometimes dangerous disease. Rats and mice are peculiarly susceptible to this disease and it is transmitted from them to cats. The presence of the disease on cats hidden by their fur is not uncommon. It was through the frequent appearance of ringworms on hands of babies that the germ theory was first pursued against the cat.

Cats are considered the natural enemies of rats and mice. Dr. Fisher claims that not five per cent of the cats and mice are mousers and that instead they kill game and song birds.

"As a matter of fact," said Dr. Fisher, "cats prefer birds to mice. They will spend twice as much time hunting birds as mice. If one keeps count of a cat's quarry during the year, he will find that the birds killed far outnumber the mice.

[illegible] has been [illegible] to rats and the [illegible] [illegible] as destroyers and as [illegible] of disease. In this connection it has been pointed out what a [illegible] animal the cat is to [illegible] the rats. That is an error. I can state from my own personal observation that only about five per cent of the cats are mousers.

"Little harm would be done if the [illegible] cat [illegible] were exterminated, [illegible] would be [illegible] opposition to that. Still we think that when more of the facts concerning cats have been made public, [illegible] will be more careful [illegible] children to play with them."

BATTLESHIPS AND AIRSHIPS.

(New York World).

It will cost $12,000,000 each to build the two battleships congress has authorized, and a million dollars a year to maintain them for their estimated lifetime of twenty years, bringing the aggregate ultimate cost of each ship up to $32,000,000.

These figures bring the usual arguments from those who abhor war, its cruelties and its reckless cost in money and blood. The cost of each ship, they point out, would buy 8,000 farms at $4,000 each; would construct 1,600 churches throughout the country at $20,000 each; would furnish the means of education through a four-years' course to 16,000 men or women at $500 per annum; would build and equip 50 manual training schools with necessary tools and appliances, giving a trade to 75,000 young people each year; would build a macadam road from New York to Chicago or build and equip 40 Y. M. C. A. buildings of magnificent proportions, each building accommodating the young men in a city of 200,000 people.

But all these arguments pale into insignificance and are made of no account compared with the achievement of Mr. Glenn H. Curtiss, who with his bi-plane at an elevation of 300 feet, perforated a mimic battleship that struck the mark 15 out of 22 shots.

We may not yet be ready for arbitration and universal peace but the Curtiss performance is an excellent answer to the question. Do the people of these United States desire to be taxed to build battleships that an airship can speedily put out of business?

TEN THOUSAND LOCKED OUT.

Enschede, Holland, Aug. 4. — A dispute over wages between the mill owner and employes of the cotton mills, which form the chief industry of Enschede, has resulted in a complete lock-out at the mills. About 10,000 operatives are locked out.

FASCINATING HAIR

Every Woman Who Uses Parisian Sage Has Plenty of It.

Women who desire plenty of beautiful hair with a brilliance and luxuriance that cannot fail to command admiration should both use Parisian Sage at once.

Parisian Sage will greatly improve the attractiveness of any person's hair in a few days. It will do more — it will rid the scalp of every particle of disgusting dandruff; it will stop falling hair and itching scalp or money back.

It cools and refreshes the scalp in summer, and removes every trace of the odor arising from perspiration in a few minutes.

Parisian Sage is a daintily perfumed preparation, delightfully refreshing and free from grease or stickiness. It will make hair grow and prevent it from turning gray.

Sold by druggists everywhere, and by Evans' Drug Store for 50 cents a large bottle. Mail orders filled, all charges prepaid, by the American makers, Giroux Mfg. Co., Buffalo, N. Y.

"In the time I have used Parisian Sage I have found it very satisfactory both as a grower and dandruff cure." Miss Ada M. Bratt, Hoosick, N. Y., Mar. 23, 1910.

EDITOR CAMPS ON BATTING'S TRAIL

Spokane, Wash., Aug. 2.—When W. H. Batting, register of the United States land office at Coeur d'Alene, Idaho, sent the now famous boycott letters to George R. Barker, editor of The Pend Oreille Review at Sandpoint, Idaho, withdrawing patronage following the publication of an editorial in which United States Senator Heyburn, Richard A. Ballinger, secretary of the Interior, and Batting himself were criticised, he probably reckoned without his host.

Brought to the attention of the officials at Washington, D. C., the gravity of the situation occasioned alarm with the result that Nelson Hartson, field representative of the land department, was hurried to the scene in an effort to smooth the matter over. What the outcome will be cannot be even guessed at just now. Editor Barker is still camping upon Batting's trail. Senator Heyburn has declined to take a hand in the embroglio, though importuned to do so by Byron S. Deffenbach, chairman of the Republican committee.

The difference between Barker and Batting was brought to a climax by a letter, in which Batting accused Barker of violating true Republican principles and threatened a boycott of Barker's paper, also declaring his intention of withholding government business from the newspapers at Sandpoint. Barker was not slow in giving the letters to a national weekly publication, and journals in various parts of the country took up the matter.

Batting admits that the withdrawal of patronage from The Review was the result of sharp criticism, saying also that newspaper was not in harmony with the Republican party. He added:

"I have no personal feeling in the matter, yet I could not consistently recognize a newspaper whose editor persisted in indulging in personal abuse and I have at no time allowed myself to reply to Mr. Barker in the same tone which he chose to follow."

CURES PIMPLES QUICKLY.

Simple Remedy That Clears Skin Quickly of All Eruptions.

For several weeks past, W. A. Erman & Son have done the biggest business they ever had in any one article in selling Hokara, the skin food that has won so many friends in Newark.

It has been found to be an absolute cure not only for all minor skin troubles, such as pimples, blackheads, herpes, acne, scaly scalp, complexion blemishes, itching feet, piles, etc., but for the worst sores, ulcers, or even chronic eczema and salt rheum. There has yet to be found any form of wound or disease affecting the skin or mucous membrane that Hokara does not heal, and its action is so instantaneous that those who try it are simply delighted with it right from the start.

In spite of its unusual curative powers, the price is trifling. To convince every one of its merits, W. A. Erman & Son will sell a liberal-sized jar for 25c., large size 50c. And remember that if you do think it does what it claims, you get your money back. You certainly can afford to try it on this plan.

FANS GETTING AN EARLY START

Spokane, Wash., Aug. 4.—Frank W. Smith, promoter and patron of clean sports, is arranging for a party of 250 baseball fans from various parts of the northwestern states and provinces, traveling in a special train, to attend the world's championship series at the close of the regular season. The trip will occupy from two to three weeks, depending upon where the series is played. Stops will be made in the principal cities to and from the objective point. Smith, who has been identified with every sporting event of importance in Spokane and the Northwest, since 1886, says there will be at least 150 men and women from Spokane in the party, the rest coming from other cities in Washington and adjoining states and the provinces of British Columbia and Alberta. More than 50 reservations have already been made. The excursion is not a money-making enterprise. The actual cost of the train and service is to be apportioned among those joining the party, the promoter donating his time in the interest of the sport.

BOYS WILL HAVE TWO DAYS HIKE

Next Monday morning the boys of the junior department will meet at the Y.M.C.A. and hit the trail south over the ridge, returning Tuesday afternoon. This hike will take the place of the one that was to be today to Zanesville. Quite a number of the boys could not be away from home the three days, so a short hike was arranged for next Monday. Each boy will provide himself with a comfort and his own eating and will carry pup tents and sleep under them at night. Every boy in the junior department is urged to go, as some of the stunts of the boy scouts' movement which is sweeping the country just now, will be tried out. The expedition will be in charge of the boys' secretary. Phone him at once if you can go.

DEAFNESS CANNOT BE CURED

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

DISPLAYS FROM STATE'S WARDS

To Form Feature of Exhibits at the State Fair Sept. 5-9.—Open Day and Night.

The work of the various State institutions is to be brought prominently before the public eye. Practical demonstrations are to be made as to the benefits derived from the large appropriations annually made in their support by the legislature. This is to be accomplished by exhibits of the handiwork of inmates at the Ohio State Fair to be held in Columbus, September 5, 6, 7, 8 and 9. The public generally is unacquainted with the good results accomplished by the different State institutions. They know little as to how the State is educating and caring for its wards. That all may have opportunity of becoming familiar with the work of the institutions, the managers of the Ohio State Fair conceived the idea of installing displays from their farms, schools and workshops.

Among the exhibits will be those from School for Deaf, Boys' Industrial School, School for Blind, Girls' Industrial Home, Ohio Penitentiary, Mansfield Reformatory, Institute for Feeble Minded, Sailors' and Soldiers' Orphans' Home, and others. These displays will be housed in the handsome structure known as the Women's Building.

Ohio's Exposition will be open both day and night, and its program is replete with many novel educational and entertainment features. Among the latter will be spirited harness racing, band concerts by Weber's famous organization, twenty free concerts, while each night visitors will be thrilled by Pain's stupendous pyrotechnic production "Battle in the Clouds." This feature depicts the prominent part aeroplanes will play in war of the future and in the unfolding of its story 300 people are employed, making it the greatest and grandest fire attraction ever presented to an American public.

DEMAND FOR LIMIT OF THE TAX RATE

Columbus, Aug. 4.—Note carefully this plank in the Democratic platform adopted at Dayton, June 22, 1910:

"We favor a maximum aggregate tax rate of 10 mills without any right to increase it, except by a vote of the people."

That states Governor Harmon's position exactly. It accords with his message to the legislature at the opening of the regular session this year and with his attitude throughout the session.

A legislature with a hostile Republican majority in both branches, emasculated the bill to limit the tax rate, and put it in such shape that Governor Harmon permitted it to become a law without his signature. As enacted, the tax limit law is so vague and indefinite that even its tentative limit of 15 mills is not binding. The Republican legislature insisted on a flexible or "elastic" limitation. Governor Harmon stood for a fixed rate of 10 mills that would properly safeguard all taxpayers. The Republican legislature forced an unsatisfactory tax limit act upon the governor. Republican papers all over the state denounced the governor for permitting the act to become a law without his signature, and a number of them raised their old cry of "playing politics" because Governor Harmon did not compromise himself by signing the bill as submitted by the legislature.

Now comes the state Republican convention at Columbus and in its platform adopted July 27, 1910, more than a month after the Dayton convention, is this plank: "We favor assessing all property, real and personal, at its true value in money and limiting the tax rate for all purposes to 10 mills."

This is exactly Governor Harmon's position. That is exactly what he urged upon a Republican legislature and exactly what a Republican legislature deliberately refused to incorporate into law. It does more — it justifies Governor Harmon's action in permitting the Republican legislature's "elastic" tax rate act to become a law without his signature, and it rebukes those Republican papers which criticise Governor Harmon for not signing it. After the record made by a Republican legislature against the pronounced stand taken by Governor Harmon in behalf of every taxpayer, how can the voters of Ohio place any confidence in the declaration of the Dick-Harding-Taft platform, which is contrary to the Republican legislature's record and which is but an echo of the Democratic platform and of Governor Harmon's declared views?

Governor Harmon will renew the effort for an explicit 10-mill tax limit law at the session in 1911 of the legislature to be elected this year. If the voters of Ohio want a tax limit law that will safeguard taxpayers, that will not be so "elastic" that it can be stretched as easily as the ordinary tax dodger stretches his conscience, they must re-elect Governor Harmon, whose position is known, and who had the courage to contend for his convictions against the partisan obstruction of a Republican legislature; and at the same time they must give him a legislature with a Democratic majority in both branches to make sure that his recommendations will be faithfully followed. With a Republican majority in either the senate or the house, Governor Harmon's efforts for satisfactory tax legislation no doubt would be thwarted by the same partisan obstruction which characterized the present legislature with its Republican majority in both branches.

Governor Harmon should have behind him a legislature with a Democratic majority in the house and in the senate if the people of Ohio expect to obtain the full benefit of the reforms for which he has been striving.

CONVENTION OF POLICE CHIEFS FOR NEWARK, 1911

Crooks, beware! Shun Newark next year.

For the heads of the different police departments of the state will be here and it will be decidedly unhealthy for you to be around.

A telegram from Chief of Police Hinkel to Secretary Wells of the Board of Trade tells the story:

"Chillicothe, August 4.

"Have secured the convention of the State Police Association for Newark in 1911. It will be held in September, second Tuesday and Wednesday.

CHARLES H. HINKEL,
Chief of Police."

The chiefs of police of the different cities of the state have an association that has been of great benefit to the different members of their cities. These men hold a meeting each year. This year it was held in Chillicothe, last year in Canton, and two years ago in Dayton.

The brainiest men in the police business will be here, not only from Ohio but from other cities of the country and the latest improved methods of thief catching are discussed. Through these meetings the heads of the different police departments become acquainted and many crooks are landed through the association.

Newark, Sandusky and Portsmouth wanted the convention next year, and all made a hot fight to land it, but Newark was chosen by the men as the city in which to hold their next meeting. Chief Hinkel worked hard to land the convention and in this he was entirely successful. He returned today and reported an excellent time.

The Board of Trade will make elaborate preparations for the entertainment of the police, for this is the first convention landed for Newark in 1911.

CURE YOUR KIDNEYS.

No Need To Take Any Further Risks.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headache, languor, why allow themselves to become chronic invalids, when a certain cure is offered them?

Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work.

If you have any, even one, of the symptoms of kidney diseases, cure yourself now, before diabetes, dropsy or Bright's disease sets in. Con Newark residents demand more convincing proof than the following:

G. W. Harter, Hebron, Ohio, says: "For several years I suffered from disordered kidneys and was unable to obtain the slightest relief from the numerous remedies I used. I finally heard of Doan's Kidney Pills and procured a box at Crayton & Co.'s drug store. Their use brought prompt relief and consequently I am glad to endorse them."

GORE NAMES THE MAN WHO OFFERED BRIBE

Muskogee, Okla., Aug. 4.—Senator Thomas Gore today named Vice President Sherman as one of the men interested in the McMurray Land contract, through which it was intended to put through a three million dollar deal and in connection with which the blind senator said he was offered a bribe of $50,000 to lend his support to the measure to put the deal through.

Jacob Hamon, a former Republican committeeman from Oklahoma was named as the man who offered Senator Gore the bribe. The money was offered him in Washington, May 6, Gore said, and when he refused to accept a $25,000 bribe it was raised to $50,000. Senator Gore's first charges were made on the floor of the senate in Washington and no names were mentioned. Gore told his story in full. He went down the line of the men he had implicated by suggestions specifying "the other United States senator interested" as Senator Charles Curtis of Kansas.

"The member of the house also interested" was named as Bird McGuire, congressman from Oklahoma.

"The man from my home town, who offered the bribe was Jacob Hamon of Lawton," Gore testified.

PURITY

Mrs. Samuel Hamilton entertained with a surprise party Wednesday in honor of the 13th birthday anniversary of her daughter Gladys. The day was spent in playing games, and a dainty luncheon was served under the trees in the orchard. Those forming the party were Misses Leila Gardner, Indus Oldaker, Darleen Wilkin, Lola Wilkin, Edith Nethers, Myrta Jones, Reta Thomson, Elsie Taylor, Mary Evers, Indus Dush, Elsie Kliver, Mabel Braden, Indus Hickman, Gladys, Sara and Mary Hamilton and Master John Hamilton.

Fred Freese's barn caught fire on Saturday and narrowly escaped destruction. Mrs. Freese was trying to destroy vermin in the barn by applying gasoline and lighted a match to see the result before the fumes had disappeared. Wm. and Bryce Jones were working on the farm and extinguished the flames.

Miss Elizabeth Hawke is in very poor health. She has been unable to sit up since Wednesday.

Mrs. Pearl Dush was taken very ill Sunday at the home of her cousin, Mrs. Ira Evers, where she and her mother, Mrs. G. W. Marriott, were spending the day. She was unable to return home until the next day, but is much better now.

Herbert Freese is visiting at the home of his grandmother, Mrs. Margaret Freese.

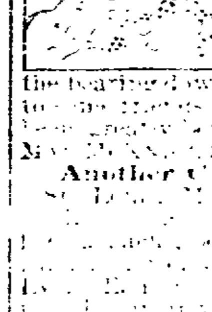

Mrs. Felix McLarnan of Newark, was a guest at the home of her cousin, Mrs. Harvey C Iville, last week.

Every month I had such a bearing-down feeling as if the lower parts would fall out. Lydia E. Pinkham's Vegetable Compound has done my nerves a great deal of good and has also relieved the bearing-down. I recommended it to some friends and two of them have been greatly benefited by it."—Mrs. Mary [illegible], Granger, Mo.

Another Grateful Woman.

St. Louis, Mo.—"I was bothered with female weakness and [illegible] and after taking Lydia E. Pinkham's Vegetable Compound and using the Sanative Wash and I have no more troubles [illegible]"—Mrs. Al. Herzog, 5722 [illegible] Ave., St. Louis, Mo.

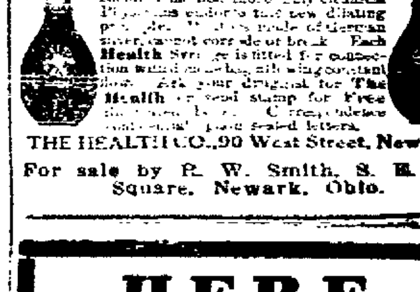

If your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, indigestion, dizziness, and nervous prostration. It costs but a trifle to try it, and the result is worth millions to many suffering women.

HAVE SOLVED THE PROBLEMS

During the time between sessions of the special grand jury, Assistant Attorney General Wm. H. Miller and Prosecutor P. B. Smythe discuss some of the great problems of the day.

"Smythe and I have agreed on two reforms which I think we are going to put into force as soon as we are a recognized power in the state," said Mr. Miller the other day.

"What are reforms?" asked a news man.

"Well, we are going to have compulsory arbitration for one thing, and the other is that we are going to have instituted in every county jail and on each floor thereof a regulation fireplug, with the hose connections and all. Then a determined man or two at the nozzle, directing a 2-inch stream of water on a mob, can defend it against ten thousand."

And the two barristers eyed each other with brotherly pride to think that they together had evolved such valuable ideas.

OUTING FOR BUSINESS MEN

Wednesday evening at 4 o'clock the members of the business men's class of the Y.M.C.A. and others will journey over to the country south of Granville, where they will indulge in baseball, volley ball and a good old swim in the creek, after which they will pitch the pup tents and sleep over night. After the supper, which will be served by the official chef of the hikers, a large camp fire will be started and then the swapping of yarns will begin. In this respect the men say the boys won't be in it when it comes to telling stories and having fun around the camp fire. One man says he has not slept out for over 15 years, but nothing could keep him from sleeping out this time. The physical director will be in charge of this party and any who have not signed up yet will call up the office at the association. Only 30 men can be accommodated, so you had better get your name in early.

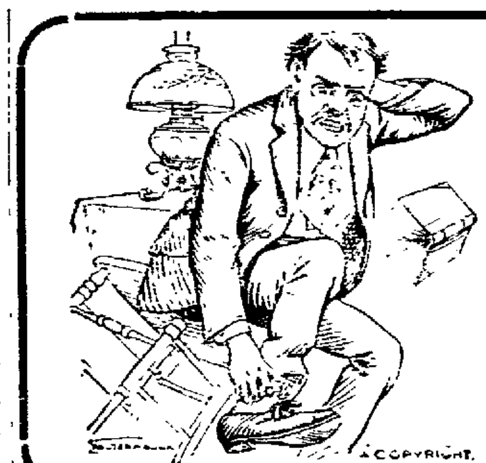

JAMES SNELLING.

James Snelling, an old and well known resident of Licking county, died at the county infirmary Thursday morning at an early hour, after an illness of some time with ailments incident to advanced age, he being past 80 years at the time of his death. He is survived by three sons, Perry of Newark, Frank of near Gratiot and John of Glenford. At this time it is not known when the funeral services will be held. The interment will be made in Mt. Carmel cemetery.

GETS WIFE'S GOODS.

Columbus, Aug. 4.—Settlement of a dispute between Carl Cly and [illegible] heirs of his wife, Alice Cly, who was shot and killed by her husband at their residence, 202 1-2 Chittenden avenue, July 17, about the household furniture of the couple, was made yesterday in probate court. Cly agreed to pay court costs in the suit to contest for the ownership of the property, in addition to the funeral expenses of his wife, and he is to receive the goods.

Cly, who attempted suicide after shooting his wife, was arrested on a murder charge after recovering.
